PROFESSIONAL SUMMARY

Web Developer with hands-on internship experience across React.js, Node.js, and WordPress. Built a customizable rich-text editor that cut page load time by 76%, and led a student sponsorship initiative that raised ₹4 lakh from 6 sponsors across 31 schools, engaging 3,000+ students.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript
- **Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Design
- **Mobile:** React Native
- **Backend:** Node.js, Express.js, REST API Development
- **Libraries:** Tiptap.js, Redux / Context API, Axios
- **Database / CMS:** MongoDB, Firebase, WordPress
- **Tools & Platforms:** Git, GitHub, Vercel, Netlify, Postman
- **AI-Assisted Development:** Prompt engineering with Claude, ChatGPT, and GitHub Copilot for code generation and debugging
- **Core Concepts:** Data Structures & Algorithms, Performance Optimization, SEO Optimization, Cross-Browser Compatibility, Agile Development

EXPERIENCE

Web Development Intern — Addensure Media LLP | *Delhi, India*
March 2026 – Present

- Designing and implementing modern UI components using React.js for seamless user interaction
- Developing and maintaining multiple responsive WordPress websites, improving user experience and site performance
- Building and customizing themes and plugins to meet client requirements
- Leveraging React Native to develop and optimize mobile application features

Software Developer Intern — MentorsLand | *Assam, India*
March 5, 2025 – September 3, 2025

- Engineered a customizable rich-text editor using Tiptap.js, enhancing content management capabilities
- Optimized frontend performance, achieving a 76% reduction in page load time
- Designed and implemented an interactive dashboard with efficient state management and REST API integration

PROJECTS

Bikash Agro Export — Personal Project | *bikashpanga-agroexports.netlify.app*
December 2025 – January 2026

- Developed and deployed a fully responsive agricultural export website using JavaScript (Intersection Observer API) for dynamic animations
- Designed a conversion-focused interface with mobile-first layout and smooth scrolling navigation
- Integrated direct communication features (click-to-call, email, WhatsApp) for lead generation
- Optimized DOM handling for faster load times

IOSF — Inter-School Event Platform | *interschoolosf.in*
September 5, 2025 – December 2, 2025

- Built and maintained the IOSF website using HTML, CSS, JavaScript, React, and Tailwind CSS, integrating REST APIs for dynamic content rendering
- Coordinated event operations engaging 31 schools and 3,000+ student participants
- Secured 6 sponsors, raising ₹4 lakh in event funding
- Improved site performance and usability, supporting increased traffic during peak registration periods

EDUCATION

Gayatri Institute of Engineering and Technology — B.Tech, Computer Science Engineering
2022 – 2026

- Ranked among top 5% of batch
- Relevant coursework: Web Development, AI Prompting

De Paul School — Brahmapur, India

- Class 12: 80% (2022) | Class 10: 89% (2020)

CERTIFICATIONS & ACHIEVEMENTS

- The Complete Full-Stack Web Development Bootcamp — Dr. Angela Yu (January 2025)
- Runner-up, Ganjam Coding Competition (Problem-Solving & Algorithms)
